SAMUEL JOHNSON,

Auditors.

# Report of Superintendent of Schools

---

To the Citizens of Northwood:

In a radio address, Secretary of the Interior Ickes said, "The individual American must be educated not only that he may be able to enjoy a happier and fuller life; he must be educated in order that, in cooperation with other educated Americans, he may do his part toward sustaining and upbuilding an intelligent and beneficent and capable government." During this past year, due to the breakdown of unrestrained individualism and competition, the government has had to come to the rescue of the industrial and economic life of America. We may smile at the "brain trust," but we must recognize that the progress of the nation hereafter must be planned by the best minds and carried out by an intelligent citizenship.

Under the Civil Works Administration, our town will benefit by a project including wells at the Ridge and Narrows Schools, with electric pumps and running water in these buildings. This project has given needed labor to unemployed citizens and will be a permanent improvement and convenience that has been sorely needed. The federal milk distribution has extended over a longer period this year than last year, and to it has been added the distribution of cod liver oil ("bottled sunlight") so much needed by the human system during the short days of winter. Acting on the principle, "You can't go wrong in helping a child," the government is seeking to carry out the provisions of the "Children's Charter" as drawn up at the White House Conference and applied to our own state

by the Child Welfare Conference called by Governor Winant in Concord. The school nurse, Miss Margaret MacDonald, has been active in carrying out these measures, as well as conducting the dental clinic and the usual routine examinations. Last year every one of the 198 pupils examined had been vaccinated—a perfect score. In order to protect the community and maintain this record, the School Board has passed a regulation that no child shall be admitted to the first grade until he or she has complied with the vaccination law. Parents of children about to enter school should take due notice and arrange for the treatment with their physicians well in advance of the opening of the school year.

During the year the district lost a faithful servant when Simeon E. Davis, janitor at the Ridge School, died suddenly at his post of duty with the key to the school-house in his hand.

Owing to the diminishing enrollment at the Mountain School, it will soon be necessary to consider the consolidation of this school with the Ridge School.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.

February 9, 1934.
